179 non-residential transactions have been excluded at local authority level for disclosure control, which has a small impact on how receipts are split between non-residential and residential, and therefore HRAD receipts. Figures may not sum to regional totals due to disclosure. For regional figures refer to Table 3b.

Figures may not sum due to rounding.

Figures for 2017-18 are provisional.

¹The method used to estimate property values means that subtotals may not sum to the overall total.

²Refunds data are not presented on 3% element receipts in this publication. For refunds data please see the quarterly publication which can be found here:
