The Town Mayor welcomed everyone to the meeting. Prior to the commencement of the meeting the following members of the public spoke:

Barry Bates spoke to update the new Council on a possible Judicial Review on the outline permission granted for a development at Vearse Farm and to seek its support and advice. He outlined progress towards a Judicial Review, explained why this was justified, and asked councillors to consider how they could help.

Malcolm Drew spoke on the motion seeking to declare a climate emergency. He referred to the Rio Summit 27 and the IPCC report on climate change. He recognised limits to Council powers but suggested initiatives it could pursue – a citizens’ assembly, signs to turn off vehicle engines, electric vehicle charging points, PV solar panels and conditions for developers. He advised he would monitor the Council’s work and would check in six months’ time.

Celia Marsh spoke on the climate emergency motion, outlining the impact of a consumer society and economic growth on the environment and social division. She said that a citizens’ assembly could build on the Neighbourhood Plan and involve the community. The Town Council had limited powers but could influence and facilitate, and could consider its use of buildings, vehicles and uniforms to see how these could be more environmentally friendly.

Rory Armstrong spoke on the climate emergency motion. He was 15 and was concerned that by the time he was 18 there would be drastic environmental changes. He expressed concern for future generations and said that the education system did not prioritise ecology. Agriculture, tourism and flooding would all be affected by climate change and the Town Council could press for change. He urged members to engage youth in their work.

Ali Edgeley gave her support to previous speakers on climate change, and spoke about community gardening as a specific initiative that could be pursued. She said that an Incredible Edibles initiative would enable pollinating-friendly plants and vegetables to be grown in public spaces. It would help create green pathways and biodiversity, transform areas with planters, and climbers on ugly brick walls. She advised that the project was ready to proceed, starting at the Bus Station, once permission was granted.
Cllr Barry Irvine, the outgoing Mayor, thanked members of the public for addressing councillors and welcomed the new Council.

17. **CLIMATE EMERGENCY**

Cllr Clayton proposed a motion as tabled within the agenda. He was mindful of public statements about the Town Council’s powers, and wanted to use the Council’s influence on others, including Dorset Council and the Government. He recognised that the actions within the motion would require further development.

Cllr Dave Rickard seconded the motion, and spoke in support of Cllr Clayton’s statement. He said that other councils were also declaring a climate emergency and it would help put pressure on Dorset Council.

- Members considered the following:
  - The importance of actions by the Town Council through its One Planet Living Working Group and the creation of a citizens’ assembly.
  - The possibility of obtaining ‘plastic-free’ status.
  - The importance of working with schools.
  - The need for the widest possible community engagement.
  - The possibility of extending the Council’s target of carbon neutrality to the entire town.
  - The need for engagement with all sectors in the town including larger businesses.
  - The potential role of Transition Town Bridport in pushing the motion forward.
The need for every Council decision to consider its impact on the climate.
The opportunity for the Council to drive awareness of climate change and to influence Dorset Council.
The use of the Rights Respecting Charter to help influence young people in particular.
The need to establish deliverable actions.

RESOLVED: that Bridport Town Council agrees to:

1. Declare a ‘climate emergency’;
2. Pledge to make Bridport Town Council carbon neutral by 2030, taking into account both production and consumption emissions;
3. Call upon National Government and Dorset Council to provide the powers and resources to make the 2030 target possible;
4. Work with other local councils to determine and implement best practice methods to limit Global Warming to less than 1.5°C;
5. Continue to work with partners across the Bridport area, via its One Planet Living Working Group, to deliver this new goal through all relevant strategies and plans;

   iii. Explore how all of the above can be integrated within the Bridport Area Neighbourhood Plan.
