These dates include Saturday and Sunday nights where the road will not be closed. Where possible we'll carry out noisy works early in the shift.

Although some of these dates overlap only one section of the network will be closed at a time.

Please note that the precise dates and times of the works may be subject to change due to weather conditions or other unforeseen circumstances. Where possible, we'll keep you updated of significant changes via advance roadside information signs.

**What does this mean for you?**

**For road users:** A full road closure of the A35 between each location and each shift during the hours shown above. A fully signed local diversion will be in place, so please allow extra time for your journey.

**For residents:** Please accept our apologies in advance for any inconvenience or disruption you may experience during this work. We'll make every effort to carefully manage noise levels to minimise the impact. Access to residents will be maintained from one direction only each night, depending on the location of the actual works to be undertaken each shift. Residents requiring access should report to the manned closure gates where they will be advised of access arrangements for that night.
